

Technical Specifications for Walkabouts

The web-based Walkabouts platform is designed to operate easily and effectively using standard equipment available in most classrooms and in many homes. Technology and equipment requirements include an internet connection and a device (laptop, desktop computer, tablet, or smartphone) with an up-to-date browser. An optional display or projector is also suggested for classroom use. To print Walksheets, a printer is required.

Firewalls

If you can browse walkabouts.com and your network allows mp4s and mp3s, you are ready to get moving with Walkabouts.

Email

The Walkabouts platform will send emails from info@walkabouts.com. Mark this email address as a safe sender or your emails may be sent to junk.

Supported Devices and Browsers
