Movement-Based Learning Leads to Improved Focus and Engagement in Greenville County Schools

PROFILE

Greenville County Schools (GCS) is the largest public school system in South Carolina and the 44th largest in the United States with 76,000 students. GCS includes the rural, suburban, and urban schools.

- 53 pre-K to elementary schools
- 23 middle schools
- 14 high schools

Andrea Bell, Project Lead
Academic Specialist for K-12
Health and PE
Greenville County Schools

Andrea Bell is an Academic Specialist for K-12 Health and PE and parent of two school-aged children who get excited to use the Walkabouts Platform at home.

“This platform enables teachers to revisit the learning concepts in a kinesthetic manner!” - Andrea Bell

Challenge

Andrea Bell, an academic specialist in Greenville County Schools, explored the Walkabouts Platform's efficacy in supporting teachers and students.

When Bell joined GCS, the Walkabouts Platform was available to their 53 pre-K and elementary campuses. Her role was to advocate for health and wellness initiatives across GCS, including integrating movement-based learning in classrooms and offering professional development.

Solution

Bell proactively engaged new staff to help them understand the benefits of integrating movement with learning. Walkabouts lessons provide content in a teacher-friendly platform and also allowed GCS teachers to address many different types of learners.

With the Walkabouts Platform, teachers can easily select and use a lesson.

Outcomes

GCS teachers agree, standards-based Walkabouts lessons are effective in both returning instructional time to the classroom and engaging students in a more focused way.

The Walkabouts Platform, a web-based kinesthetic learning solution for pre-K to 5th grade students, boosts engagement and retention through short, movement-rich lessons that activate the elementary curriculum.
