WALKABOUTS PLATFORM™

FOR DISTRICT AND SCHOOL PRIMARY CONTACTS

What Is the Walkabouts Platform?

The Walkabouts Platform, a web-based, whole-child active learning solution, brings movement into everyday classroom instruction. With pre-K to 5th grade lessons correlated to state and national standards, educators can seamlessly integrate physical activity and mental fitness into math, ELA, reading, science, social studies, financial literacy, and test preparation—helping students learn better and feel better. The platform includes Walkabouts for pre-K to 2nd grade, 180s for 3rd to 5th grades, Walksheets (PDF worksheets with a movement component) for pre-K to 5th grade, and Moves, short movement break videos for pre-K to 5th grade.

Primary Contact Role

A primary contact is assigned the role by a district or school administrator and serves as a liaison between a district or school and the Walkabouts Platform. If you have received a welcome email from the Walkabouts Platform, you can get started!

- If you have not yet received a welcome email and verified your account, visit walkabouts.com/welcome to do so.
- To log in, visit walkabouts.com/lms.

The primary responsibilities of a Walkabouts Platform primary contact are to:
1. Set up teachers with platform login credentials, including new teachers who start after the beginning of the school year.
2. Set up students with platform login credentials, including new students who start after the beginning of the school year (if desired).
3. Create playlists of Walkabouts, 180s, Walksheets, and/or Moves (if desired).

Contact the Walkabouts Platform at support@walkabouts.com with any questions.

WALKABOUTS PLATFORM™

Quick Tips for Primary Contacts

Reset a Password: To reset a password, visit the login page at walkabouts.com/lms and click Forgot Password? beside the Login button.

View School, Teacher, and Student Data: Primary contacts have administrator access to the platform. To view data, visit walkabouts.com/lms/settings/account. From here, primary contacts can view data, add and remove teachers, add and remove students, and more.

View Teacher and Student Upload Templates: Refer to the following pages for upload directions. To view templates, visit walkabouts.com/lms/settings/account.

Set Up Teachers with Login Credentials

Primary contacts at districts and schools are responsible for setting up teachers with Walkabouts Platform login credentials. Teachers must have login credentials to use the Walkabouts Platform. This setup typically happens in one of two ways:

- Upload teacher information into the Walkabouts Platform to create login credentials for teachers.
- If your district or school uses Clever or ClassLink, work with your district's or school's technology department to connect to the Walkabouts Platform app. If you use Clever or ClassLink, do not upload your teachers. Instead, contact us at support@walkabouts.com to learn next steps.

For #1 above, the primary contact will need the names, email addresses, and grade levels of all pre-K to 5th grade teachers in the district or school. We recommend providing Walkabouts Platform access to all teachers regardless of their role.

Click here for step-by-step instructions for uploading a teacher list.

Visit walkabouts.com/lms/settings/account for the teacher upload template and additional information.

WALKABOUTS PLATFORM™

Set Up Students with Login Credentials

Your district or school may choose to provide Walkabouts Platform login credentials for all students so they can access the platform at school or at home. As with setting up teachers, if your district or school uses Clever or ClassLink, do not upload students, but instead contact us at support@walkabouts.com to learn next steps.

You may choose to complete one or both of the following:
- Upload a list of all students at your school.
- Create a class team for each classroom teacher at your school.

- You will need the names, email addresses, and grade levels of all pre-K to 5th grade students at your school. The classroom teacher's name is optional. Note: Students must be able to access the email address in order to set their passwords. If desired, you may use a student or a parent/guardian email address.
- You will upload the student information into the Walkabouts platform to create Walkabouts Platform login credentials for students.

Note: Primary contacts may ask classroom teachers to upload their own students to create student login credentials.

Click here for step-by-step instructions for uploading a student list.

Visit walkabouts.com/lms/settings/account for the student upload template and additional information.
